

Appl. No.: 09/827,196  
Response dated October 7, 2003  
Office Action 7/703

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of claims:**

Claims 1-22 (canceled).

23. (New) An anhydrous grout composition that sets after being mixed with water comprising an anhydrous water settable filler that comprises between 10 and 90% by weight of the total grout composition and a moisture curable polymer.

24. (New) The composition of claim 23, further comprising a retarding agent.

25. (New) The composition of claim 23, wherein the anhydrous water settable filler comprises Portland cement.

26. (New): The composition of claim 23, wherein the anhydrous water settable filler is rapid hardening Portland cement.

27. (New) The composition of claim 23, wherein the anhydrous water settable filler comprises between 30 and 55% by weight of the total grout composition.

28. (New) The composition of claim 23, further comprising a coloring agent.

29. (New) The composition of claim 23, further comprising a stabilizer.

30. (New) The composition of claim 23, further comprising a rheologic agent.

31. (New) The composition of claim 23, further comprising a plasticizer.

32. (New) The composition of claim 23, wherein the moisture curable polymer is selected from the group consisting of polyacetoacetates, polyisocyanates and mixtures thereof.

33. (New) An anhydrous grout composition kit comprising:

a container comprising a moisture curable polymer; and

a container comprising an anhydrous water settable filler.

34. (New) The kit of claim 33, further comprising a container comprising water.

35. (New) The kit of claim 33, further comprising an a container comprising a retarding agent.

Appl. No.: 09/827,196  
Response dated October 7, 2003  
Office Action 7/703

36. (New) The kit of claim 33, wherein the anhydrous water settable filler comprises Portland cement.

37. (New) The kit of claim 33, wherein the anhydrous water settable filler is rapid hardening Portland cement.

38. (New) The kit of claim 33, wherein the anhydrous water settable filler comprises between 30 and 55% by weight of the total grout composition.

39. (New) The kit of claim 33, further comprising a coloring agent.

40. (New) The kit of claim 33, further comprising a stabilizer.

41. (New) The kit of claim 33, further comprising a rheological agent.

42. (New) The kit of claim 33, further comprising a plasticizer.

43. (New) The kit of claim 33, wherein the moisture curable polymer is selected from the group consisting of polyacetoacetates, polyisocyanates and mixtures thereof.

44. (New) A method of filling a gap or crevice comprising:

providing moisture curable polymer; and

adding an anhydrous water settable filler, wherein upon exposure to water, the moisture curable polymer and the anhydrous water settable filler fill the gap or crevice.
